REMARKS

By the foregoing Amendment, Claims 1, 2, 4, 11 and 13 are amended and Claim 20 is cancelled. Entry of the Amendment, and favorable consideration thereof is earnestly requested.

The Examiner has objected to the drawings under 37 CFR 1.83(a). Figure 2, Paragraph [00050] and Claims 4 and 11 have been amended to address these objections.

Claims 1-17 and 20-22 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. Claims 1, 2, 4 and 13 have been amended to obviate this rejection. More specifically, the term "setting" has been replaced with the term "configuring" to clarify the term. In addition, the double use of the word "or" has been removed. Applicant respectfully submits that the term "testing, configuring, or training device for a PDD or PDT system" is now clear. Should the Examiner believe that further clarification is necessary, Applicant invites the Examiner to telephone the undersigned so that mutually agreeable language may be decided upon.

For the foregoing reasons, Applicant respectfully submits that all pending claims, namely Claims 1-17, 21 and 22, are patentable over the references of record, and earnestly solicits allowance of the same.

Respectfully submitted,
